

There are different kinds of hepatitis. Know the ABCs.

Hepatitis A, hepatitis B and hepatitis C are different. You can protect yourself and others by learning how they are passed on from person to person and how they are treated.

Not just needles. Everything new, every time. Prevent Hep C.

Living with Hep C? Take care of your liver. And yourself.

Treatment can cure Hep C. Know your options.

Hepatitis C. You can have it and not know it. Get tested.

Hep C is passed blood to blood. Know the risks.

Canada's source for HIV and hepatitis C information
